

HANDLING CLIENT FEEDBACK POLICY

Rationale

This policy establishes a clear and responsive system for handling client and student feedback. It aims to provide accessible channels for expressing concerns, complaints, commendations, inquiries, and suggestions. By addressing feedback promptly and systematically, the organization fosters a culture of continuous improvement and responsiveness aligned with its strategic goals.

Scope

This policy applies to all feedback submitted through the Feedback Management System (FMS) by internal and external stakeholders of the institution. It covers all university colleges and offices responsible for acting on feedback, including the Office of Student Affairs (OSA) and the Management Information System (MIS).

Guiding Principles

1. **Transparency** – All stakeholders shall have access to clear information on how to provide feedback and how it is processed.
2. **Responsiveness** – Feedback must be acknowledged and addressed in a timely and respectful manner.
3. **Confidentiality** – Stakeholder identity and feedback details shall be handled with appropriate discretion.
4. **Accountability** – All involved units are expected to take responsibility for feedback relevant to their functions.
5. **Continuous Improvement** – Feedback shall be used to evaluate and enhance services and operations.

Compliance

All offices and personnel involved in the handling of feedback are required to respond to valid feedback within three (3) working days. In cases where feedback is not addressed within the expected timeframe, the appropriate escalation protocols must be followed. Staff are also expected to actively participate in monthly reporting and feedback evaluation activities. To ensure continuity of service, each office must designate alternate personnel who can access the Feedback Management System (FMS) during the absence of the primary responsible staff. Failure to comply with these response timelines and protocols may lead to the issuance of formal notices or memoranda, with copies furnished to the Human Resource Management and Development (HRMD) Office.

IMPLEMENTATION

Roles and Responsibilities

Stakeholders are responsible for submitting feedback—including concerns, complaints, commendations, inquiries, and suggestions—through the official Feedback Management System (FMS) platform, which can be accessed via the designated URL or Student Portal.

The FMS Coordinator, under the Office of Student Affairs (OSA), is tasked with receiving and reviewing all submitted feedback. The Coordinator is responsible for validating and classifying the feedback according to its category (Facilities, Personnel, Process, Others) and type (Concern, Complaint, Commendation, Inquiry, Suggestion). Valid feedback is forwarded to the appropriate unit no later than the day after receipt. The Coordinator also monitors the responses from the relevant units and follows up on unresolved issues. Additionally, the Coordinator compiles and submits monthly feedback reports to the Head of OSA.

Concerned units, colleges, and offices are expected to acknowledge and respond to feedback in a timely manner. They are required to coordinate with the FMS Coordinator to resolve concerns effectively and ensure that alternate personnel have access to the FMS in the absence of the designated staff.

Secondary Protocols for Escalation

If feedback is not addressed by the responsible unit on the same day it is received, the FMS Coordinator will initiate follow-up actions. This includes sending daily SMS and email reminders to the concerned Head or assigned personnel. If there is still no response after three (3) days, a memorandum will be issued to the responsible personnel, with a copy furnished to the Human Resource Management and Development (HRMD) Office.

Implementation and Review

Feedback reports shall be compiled and presented during monthly management review meetings to ensure transparency and accountability. The Office of Student Affairs is responsible for regularly assessing the effectiveness of the Feedback Management System (FMS) and recommending enhancements as needed. Additionally, this policy shall be reviewed annually, or as necessary, to ensure it remains aligned with the institution's goals and the evolving needs and expectations of its stakeholders.
